

Please review the following booth specifications to ensure that your booth display meets the requirements. If your booth does not meet these specifications, you must submit a rendering of your booth set-up to Show Management for approval.

All booths regardless of size, are required to follow these guidelines. To avoid additional costs (i.e design cost or tear down of an unapproved structure), please obtain written approval before beginning production or construction of your booth display.

All Booths 400 sq ft and over must submit a booth diagram or layout to Show Management by November 16, 2018.

Questions? Call Show Management at 972-536-6312.

Booth Configurations:

All booths must have floor covering.

In-Line (Linear) Booth (Booths 10' x 10')

Definition: In-Line Booths have only one side exposed to an aisle and have at least one adjacent neighbor on either side of the booth.

Booths are most commonly 10' wide by 10' deep. No booth construction or signage may exceed 12' in overall height. The maximum height of 12' is permitted on the back 5' section, and a maximum height of 4' is permitted on the front 5' section. All booth construction and signage exceeding 8' in height may not have any back-facing text or graphics. Please reference the diagram of allowable configurations.

No hanging signage from the ceiling is allowed in an In-Line Booth.

Note: When three or more In-Line Booths are used as a single booth space, the 4' height limitation is applied only to that portion of booth space which is within 10' of an adjoining booth.

A Corner Booth is an In-Line Booth exposed to aisles on two sides. The same rules for In-Lines apply for Corner Booths.

Perimeter In-Line Booth (Booths 10' x 10')

Definition: A Perimeter Booth is an In-Line Booth that is the outermost aisle of booths that do not back up to another booth.

All guidelines for In-Line (Linear) Booths apply to Perimeter Booths except that the maximum backwall height allowed on the back 5' section is 16'. No hanging signage from ceiling is allowed in a Perimeter Booth. Please reference the drawing for a diagram of the allowable configurations.

In-Line (Linear) Booth with Canopies and Ceilings

Canopies, including ceilings, umbrellas and canopy frames, can be either decorative or functional (such as to shade computer monitors from ambient light or for hanging products). Canopies for In-Line (Linear) or Perimeter Booths should comply with line of sight requirements.

The base of the Canopy should not be lower than 7' from the floor within 5' of any aisle. Canopy supports should be no wider than 3". This applies to any booth configuration that has a sightline restriction, such as an In-Line (Linear) Booth. Fire and safety regulations in many facilities strictly govern the use of canopies, ceilings and other similar coverings.

Island Booths (Booths 20' x 20' or greater)

Definition: An Island Booth is any size booth exposed to aisles on all four sides of the booth with no adjacent neighbors.

Booth fixtures, components and signage will be permitted up to a maximum height of 22'. Hanging signs from the ceiling are permitted in Island Booths that are 400 square feet and larger, but the top of the sign may not exceed 22' in overall height.

Hanging Signs

Hanging signs will be permitted in Island and Split Island Booths ONLY (minimum of 400 sq. ft.) at a 22' maximum from floor to top of sign.

Signs may be hung from the ceiling (where permitted), trusswork or equipment. Signs that will be hung from the ceiling or trusswork must be installed and dismantled by the Rigging Crew. For questions on hanging signs, please call Show Management at 972-536-6312.

Split Island Booths (Booths 20' x 20' or greater)

Definition: A Split Island Booth is a booth which shares a common backwall with another booth. The entire cubic content of this booth may be used, up to the maximum allowable height of 22', without any backwall line of sight restrictions. No signage is permitted on backside of backwall or within 5' of the backwall.

Unfinished Walls

Any unfinished walls are subject to review by Show Management. Should Show Management deem the backside of the booth "unsightly" and/or does not conform to the overall quality of the show, the exhibitor may be required to drape the backside of the booth at the exhibitor's expense.

Covered/Multi-Level Booths

All exhibitors planning to build a covered or multi-level booth must read and return the Multi-Level Booth Request form to Show Management by November 16, 2018.

QUESTIONS?

Contact Show Management for more detailed information. Please submit all variance requests for pre-approval.
